

Stephens County High School
Governance Team Meeting
November 1, 2017
1:30pm
Stephens County High School Administrative Conference Room
Agenda

Technical College Readiness Math discussion Simmons 15 minutes

-Mrs. Jessica Simmons discussed the Technical College Readiness Math class that would be offered to students as a substitute for Alg.2 for a very limited list of students. Many times, Alg. 2 can actually stand in their way of graduating and this is something GA has just rolled out to schools. Students can take the class after several steps have been taken that include: Students taking the Accuplacer test and receiving qualifying scores; parent notification and approval; test results reviewed by a counselor; registration; and roster verification. SGT members voted 4-0 with Gary Butts and Robert Stowe not present to send to the BOE for approval.

SGT Training PowerPoint discussion Kersh 5 minutes

-Mr. Kersh suggested that the SGT members could review the SGT Training PowerPoint via email to review all rules and regulations for serving on the SGT.

School Year Calendar discussion Kersh 5 minutes

-Mr. Kersh discussed the school year calendar with the SGT members. A member suggested to propose scheduling Fall Break and the bye week of football in the same week.

Funds needed for textbooks discussion Stowe 15 minutes

-Robert Stowe presented an American Government textbook that is required for the upcoming AP American Government class that is starting January 2018. A purchase of 45 books is needed for the class that totals around \$6,210, which is about \$138 per book. The books will also come with supportive materials for the class. The AP Government class serves 10th/12th grade students. The SGT voted 5-0 with Gary Butts not attending to purchase the books. An SGT member suggested to present the purchase to the BOE requesting funds before using charter funds for this purchase.
